CASA DUHAGON + KITCHEN 1540

Energetic Elegance

Inspiration

Every home should be filled with love and art, the eye feasting on beauty. To dine at a well appointed table—where every chair and plate has been chosen for its grace and elegance—should enflame the appetite for living. Chef Brandon Fortune crafts menus that are energetic and approachable, "just enough of an understanding to entice curiosity on some dishes and a distinct desire to indulge in others," he says. Many of his recipes are twists on nostalgic dishes from his past..

Bio: Designer/Showroom

In 2008 Mariana Postlethwaite formed Casa Duhagon. It is in this company that she realized that anything is possible. She decided it was best to combine what she had learned during these nine years of hard study and work. Our focus is only interior design, furniture design and interior decor. The idea is to deliver a project that is 100% livable, that is what she calls turn-key design. Creativity and the fact that Casa Duhagon leaves a different soul on each project is what matters most to the company. Each project is different and has its own fresh, eclectic style.
